

B-PLEX-EC

High-concentration liquid vitamin B-complex

B-PLEX-EC is a high-concentration liquid vitamin B-complex designed to support optimal metabolism, growth, and production in livestock and poultry. Packed with essential vitamins, amino acids, and nutrients, this supplement is formulated to address B-complex deficiencies during stress conditions.

The precise dosage recommendations for different animals ensure effective results, whether for sheep, goats, calves, cattle, buffaloes, dogs, cats, or poultry. **B-PLEX-EC** is indicated for various purposes, including overcoming B-complex deficiencies, promoting healthy growth and feathering, improving metabolism, and optimizing production parameters.
