

MINALYSE OTM

Organic Trace Minerals for Poultry

Organic trace minerals are essential nutrients that are chelated or complexed with organic molecules, making them more bioavailable and easier for poultry to absorb.

COMPOSITION

Each 1 Kgs Contains	
Chealed Manganese	: 90 gm
Chealed Zinc	: 70 gm
Chealed Copper	: 10 gm
Chealed Iron	: 80 gm
Chealed Cobalt	: 2 gm
Chealed Chromium	: 125mg
Selenium	: 0.6 gm
Iodine	: 0.5 gm

BENEFITS

- Prevent lameness in broilers and layers
- Improves metabolic rate
- Enhances the enzyme activity as co factors
- Controls the metabolic disorders due to ionic imbalance
- Maintains long peak egg production
- Improves egg shell thickness

DOSAGE

Broiler - 500 gm/ ton of feed
Layer - 750 gm / ton of feed
Breeder - 1 to 1.25 kg / ton of feed or as directed by the veterinarian

Available
Pack
25 kg
